Mail, list & Thunderbird

Get access to your mail

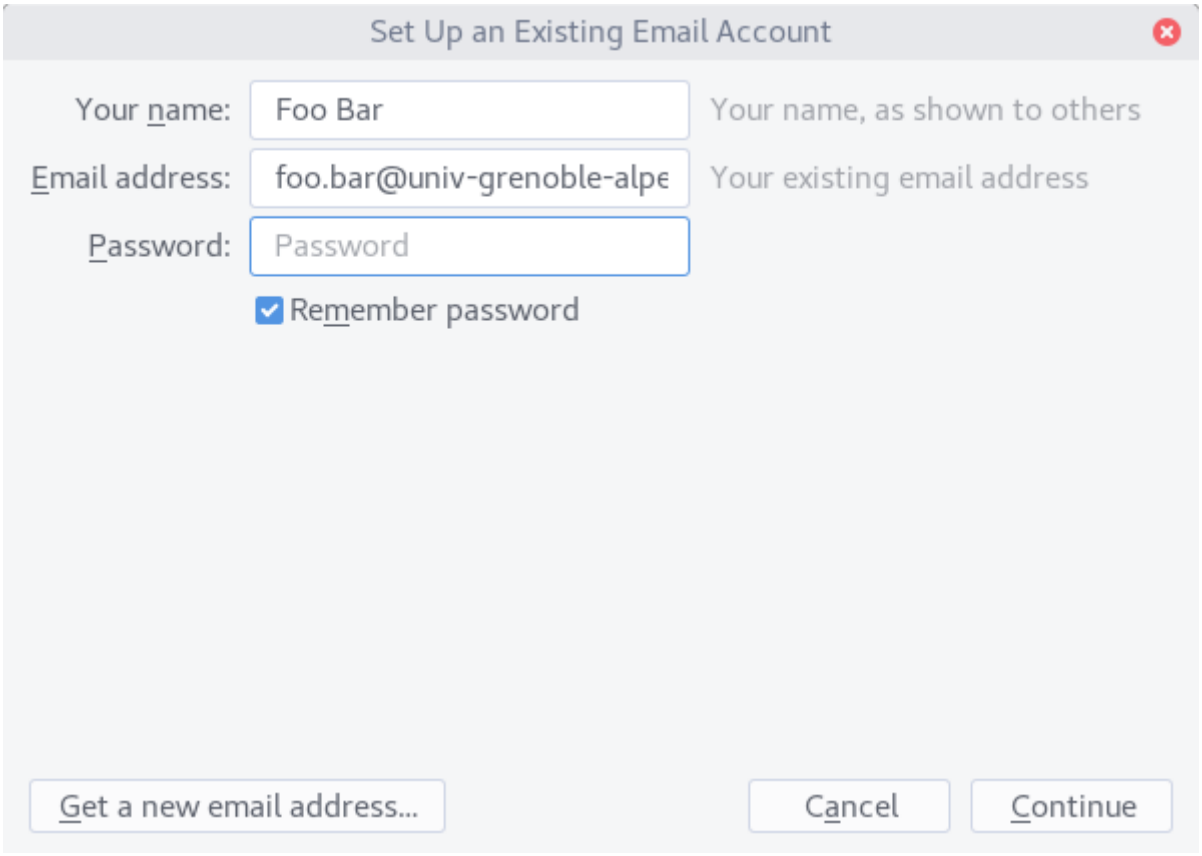

- The **webmail** : https://mail.ige-grenoble.fr/
- Use **Thunderbird** with your mail account

Mailing list

- Registering to an existing IGE mailing list or asking for a new mailing list on Intragere
- Creating your own mailing list using the CNRS services (Inscription/désinscription par envoi de mail avec objet “subscribe nom_de_la_liste” et “unsubscribe nom_de_la_liste”)

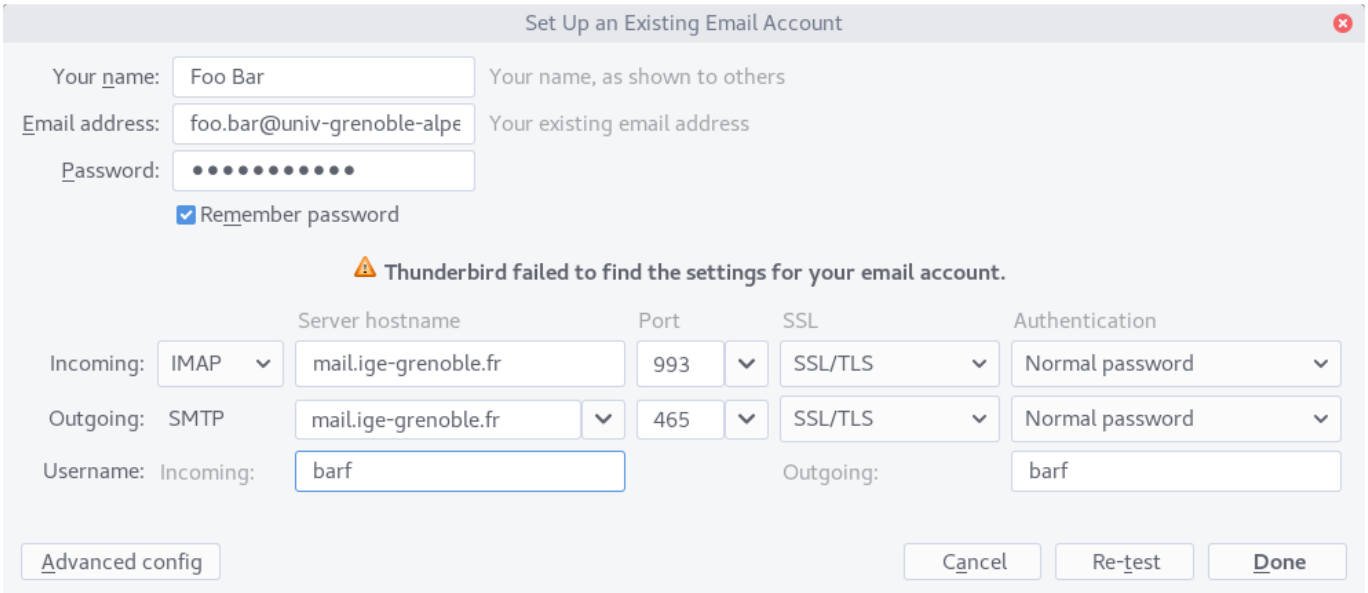

Configure Thunderbird with your email ⚡

In Thunderbird, go to `File > New > Existing mail account`

Enter your e-mail address and corresponding password. Then, it should auto-detect the configuration. If not, enter the following:

- Incomming: `mail.ige-grenoble.fr`, SSL/TLS, `Normal password`
- Outgoing: `mail.ige-grenoble.fr`, SSL/TLS, `Normal password`
- username: AGALAN username

Finally, click Done.

It may prompt a warning for the Certificat, which is only valid for `mail.lthe.fr`. It's a bad practice but until this problem is solved, but click `I confirm and accept the risk`.
